DEAN'S OFFICE
FACULTY OF MEDICINE

November 23rd, 1916.

President Falconer,
University of Toronto,
Toronto.

Dear President Falconer;-

On Tuesday night, Doctors Wishart, Goldie, McMurrich and myself went to London to examine the equipment, etc. of the Western University and spent all of yesterday making the inspection. We found that they have limited classes, the First Year having but twenty-four students. If this number of students is limited, the work they are doing in the primary years is probably as good as our own.

The equipment is very fair and the full time Professors are brilliant men of the very best stamp,- indeed I wish we had some of them on our staff.

When it comes to considering the work of the final years we find that we are not in a position to speak as enthusiastically, as it is but reasonable to suppose the facilities for education are

not equal to those which can be furnished in a large centre such as Toronto. The Hospital is a really good one but with a comparatively limited number of beds. Its equipment, while good, cannot begin to compare with such a Hospital as the Toronto General and the teachers as a whole have not the same facilities for acquiring knowledge as the teachers in Toronto. The Hospital is not possessed of an adequate Out Patient Department. There is no Social Service Department and the Obstetrical Wards are too small to provide adequate material. The Nose and Throat Department is quite inadequate.

Our Committee will not make its formal report for some time but my personal view is that we could safely admit their students from the primary years to our courses without making further demands on them. I would not think that it would be a proper thing to admit the students from the final years.

If you wish more detail I shall be glad to run up and give it to you.

Yours faithfully,

W. Clarke

Dear Mr. Dean:

The Bursar has just sent me these two letters.

Do you know anything about them? Do you think that Dr. Roberts
has omitted payment?

Yours sincerely,

President.

Dear President Falconer;-

Would the University
care to have a lecture by Col. Primrose on the
work at Salonica? He has a number of splendid
lantern pictures and I am sure would be glad to
show them if an evening were arranged.

Yours sincerely,

Dear President Falconer;-

This morning I learn that
Col. Roberts has overdrawn his account, in addition
to the amount we have already provided for at the
last meeting of the Executive, £ 293;6;6.

The Bank has asked us to transfer funds to put this
amount to its credit, but of course we cannot do this
after the last instructions from the Committee.

I thought it well to draw your attention to the matter
so that if necessary the Committee may meet.

Yours sincerely,

Dear Dr. Clarke:

I have just drafted an answer to the petition of those twenty graduates in Medicine. Will you be good enough to go over it very carefully? Perhaps you will show it to Detweiler and Starr and some others and on my return I will re-write it after receiving your suggestions.

Yours sincerely,

Dear President Falconer;-

Enclosed please find a letter from Dr. Roscoe Graham regarding service overseas. It would not be possible to let this young man go at the present time without interfering with our efficiency here. If not too much trouble, I wish you would write him a letter to that effect.

Yours sincerely,

G. H. T. Lane
Dean.
